

Frost & Sullivan Award for dSPACE

Frost & Sullivan has granted the award 2005 Leading Manufacturing Test Company of the Year to dSPACE in recognition of its pioneering role and its market position in hardware-in-the-loop (HIL) systems. Frost & Sullivan is one of the premier strategic growth consulting companies in the world. The Company of the Year Award is presented each year to the company that has demonstrated unparalleled excellence within its industry.

The Frost & Sullivan Awards are based on numerous factors including the company's business development, competitive strategy, and customer service leadership within a particular industry. Frost & Sullivan found dSPACE to have an outstanding position in the automotive HIL simulation systems market, way ahead of its competitors. There are currently more than 1,100 simulators with dSPACE technology in use worldwide.

dSPACE has assisted numerous car manufacturers in adopting a wide variety of new technologies. Its customers include almost every company in the

automotive industry. dSPACE is perceived to exhibit outstanding management and consistent growth, and to provide high-quality products and services. The Award will be formally presented to dSPACE during the

they became the standard in the marketplace, and that created strategic product implementations to further expand their market base.

Frost & Sullivan 2005 Excellence in Industrial Technologies Awards Banquet in the US on May 25 in Florida. At the event, Frost & Sullivan will honor companies and individuals that identified emerging trends before
